

# North Adelaide Public Golf Course

Construction Start – 27 April 2026

The Government of South Australia is transforming the North Adelaide Golf Course into a leading golfing destination capable of showcasing the state to the world.

The redevelopment will deliver a new 18-hole championship course, driving range and practice area as well as improved facilities and amenity for year-round public use.

The completed project will not only significantly increase the economic benefit to the state through the hosting of major tournaments but will provide an opportunity to showcase the cultural significance of our unique park lands and boost the growth of golf participation particularly amongst under-represented demographics.

The project will also see new and expanded walking and cycling trails, providing greater access for the thousands of South Australians who regularly visit and commute through the area.

## Cultural significance

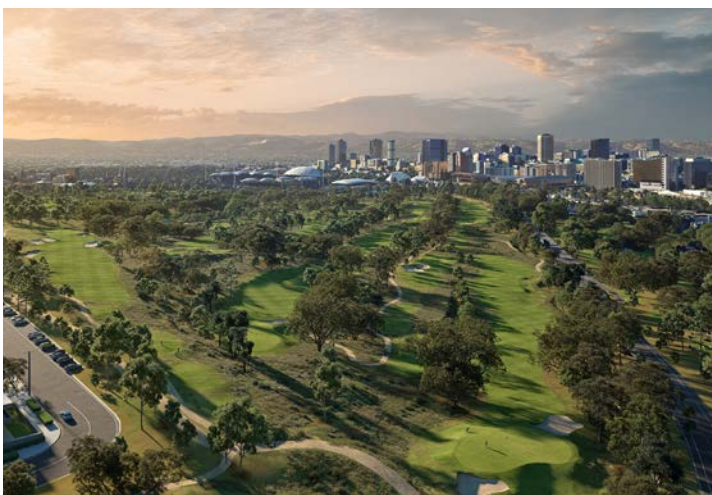

The redevelopment site is located on the traditional Country of the Kurna people of the Adelaide Plains. It is acknowledged that this area is culturally and spiritually significant to the Kurna people.

Ongoing engagement is occurring to reflect the values, stories, art, language and history of the Kurna people through the project design.

## Trees and vegetation

Trees and vegetation are an integral feature of the golf course design, providing an attractive surrounding, shade and challenging play. Every effort is being made to retain as many trees as possible and protect the biodiversity and ecology of the park lands.

The project will see more than 1,700 new trees planted, significantly increasing tree cover. Additional native planting and naturalised areas will also help connect green spaces and create a better habitat for wildlife.

## Works Involved

To create the championship course, 18 holes will be established. To do this, the following works will occur:

- › earthworks to shape each fairway
- › installation of irrigation
- › creation of new golf cart and walking paths
- › landscaping and improvement to natural rough areas

## Construction management

### Construction hours

Construction activity on the golf course will start on 27 April 2026.

Works will occur:

- › Monday to Friday  
7.00am to 6.00pm
- › Saturdays  
7.00am to 1.00pm

Inclement weather may impact these hours.

### Fencing

For the safety of workers and the community, the construction area will be temporarily fenced for the duration of the works.

### Support areas

Surrounding roads will form construction support areas. There may be intermittent impacts across these areas.

Ahead of any impacts occurring, relevant stakeholders will be notified.

## Traffic management

To support construction activity, the following changes to traffic conditions will be implemented:

From 27 April 2026

- › Speed limit reductions along sections of War Memorial Drive, between Montefiore Road and Park Terrace

Between 27 April – 1 May 2026

- › Intermittent north bound road closures along Montefiore Road between War Memorial Drive and Montefiore Hill

## Vehicle access

Construction vehicles will enter and exit the site via four main gates:

- › 2 gates along War Memorial Drive (heavy vehicles)
- › 2 gates along Strangways Terrace (commercial and light vehicles)

Construction personnel vehicles will be parked onsite within the construction area.

## Dust management

To help minimise dust leaving the construction site water carts will be used for suppression, shade cloth applied to temporary fencing, and fairways grassed progressively to avoid leaving soil exposed for long periods of time.

# North Adelaide Public Golf Course

## Access management

### Bikeways and shared paths

Due to site safety, access to some paths will be restricted.

A network of pathways surrounding the construction area will remain open for ease of people who regularly access this area of the park lands.

Directional signage will be in place to assist users in accessing available paths.

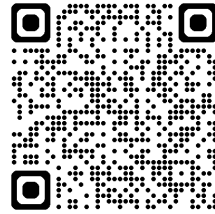

### Public transport

No impacts to public transport are anticipated to occur over the course of the construction period.
