Available rebates

Electric Vehicle Chargers

7 kW to <50 kW electric vehicle charging station/s:

- a. 50% up to \$1,000 per dedicated unidirectional (one way) station
- b. 50% up to \$5,000 per dedicated bi-directional (two way) station

≥50 kW electric vehicle charging station/s

- a. 50% up to \$5,000 per dedicated parking bay

50% up to \$250 per electric bicycle charging station

Electricity Demand Management Systems

- a. 25% up to \$1,000 for basic demand control
- b. 50% up to \$10,000 for advanced demand control including virtual power plant capabilities

Pre-commitments

Rebate pre-commitment agreements are available for:

- Electric vehicle charging stations and demand management systems
- Applications for more than \$30,000 to a single site in a financial year (Partnership Projects).

Pre-commitments are subject to funding availability at the time of application and will not be offered once 75% of the Sustainability Incentives Schemes (the Scheme) funding has been allocated.

Before you apply

1. Please read and understand all sections of this application form and note the documentation required for your application.
2. Obtain all relevant approvals, including from the property landlord, body corporation, SA Power Network and Council (phone Development Assessment on 8203 7185).

How to apply

Complete, sign and lodge this application form attaching:

- Supporting system information and evidence of works
- Itemised receipt/s for the supply and installation of the system, demonstrating full payment, discounts or other grants, OR for pre-commitments, quote/s for proposed work and supporting system information.
- Electrical Certificate(s) of Compliance (CoC)

- If applicable, a copy of your:
 - » Embedded Generator Agreement (Vehicle to Grid chargers)
 - » Written approval from your body corporation, landlord or equivalent
 - » Commonwealth Concession Card
 - » Tenancy Agreement
 - » Decision Notification Form for Development Approvals (D.A.)

Electric Vehicle Charging and Demand Management criteria

1. Demand management limit: maximum of one incentive per retailer electricity meter (National Meter Identifier – NMI)
2. A demand management system must be controlling four or more electric vehicle chargers on a single NMI.
3. Rebates may be sought for multiple electric vehicle chargers.
4. Software subscription and monitoring service fees are ineligible.
5. The system must be a permanent fixture to the premises and cannot be removed without prior consent of Council for a period of 5 years from the date of the rebate payment. Council reserves the right to require reimbursement if the system is removed within this period.

General eligibility criteria and conditions

1. The property must be located within the City of Adelaide municipal area.
2. Rebates are not available for installations completed before 1 July 2019, and no more than 12 months prior to Council receiving the application form.
3. The Scheme's funding is subject to Council's annual budget processes and funding is limited.
4. Council has the right to cease the Scheme at any time without notification and applications are not guaranteed to receive funding (except where pre-commitment has been approved and activated).

5. Rebates will be applied to the out-of-pocket installation cost incurred by the owner, occupier of the premise or body corporation, after all other incentives, grants, rebates and discounts received have been deducted.
6. The applicant acknowledges and agrees that the City of Adelaide accepts no liability in respect of any claim, cause of actions, loss or damage arising out of, or in relation to, any device purchased or service procured under the Scheme.
7. Environmental measures/devices supported through the Scheme must be installed by appropriately licensed and accredited installers, and maintained in accordance with any relevant guidelines, and in a manner which does not pose risks to the health or welfare of any person.
8. Where a Council D.A. is required, a rebate will be provided once the D.A. is granted, the system is installed according to the conditions set out in the D.A., and the relevant paperwork is submitted.
9. If approved, it may take Council up to 30 working days to pay the rebate.
10. Council may request provision of information associated with the system and usage data for the preparation of a case study.

Development Approval (D.A)

A Development Approval may be required for public electric vehicle charging stations that are not incidental or ancillary to the approved use of the land. Please speak to your installer and Council's Development Assessment staff (phone: 8203 7185) to discuss planning and building requirements specific to your property.

Application Declaration

Note: Only owners, and tenants and property managers with authorisation from the owner/s may sign this declaration.

I acknowledge that the application and/or all supporting documentation may be made publicly available.

I agree to the eligibility criteria and conditions as set out in this document.

I declare that the information included on and supplied with this form is true and correct, and that:

- If applying on behalf of an organisation, I am an authorised representative of that organisation
- If renting the property, I have referred to the tenancy agreement and attached written permission to install the system
- If the installation is subject to approval from a body corporate (or equivalent), I have referred our relevant agreement and attached written permission to install the system.
