

ENERGY STORAGE SYSTEMS

50% up to \$5,000 – Battery energy storage

ELIGIBILITY	 Houses (owner occupied)	 Houses (concession)	 Houses (tenanted)	 Apartment buildings	 Small businesses	 Multi-storey commercial	 Non-profit community + sporting
	X	X	X	X	✓	✓	✓

Available rebate

Energy storage systems are eligible for up to 50% of the installed system cost to a maximum of \$5,000.

Pre-commitments

Rebate pre-commitment agreements are available for:

- Energy storage systems of any size

Pre-commitments are subject to funding availability at the time of application and will not be offered once 75% of the Sustainability Incentives Schemes (the Scheme) funding has been allocated.

Before you apply

1. Please read and understand all sections of this application form and note the documentation required for your application.
2. Familiarise yourself with the Clean Energy Council's (CEC) information about battery and storage safety (www.cleanenergycouncil.org.au).
3. Use a licensed and CEC accredited electrical installer.
4. Contact your electricity retailer to discuss implications of installing a energy storage system on your property.
5. Obtain all relevant approvals, including from the property landlord, body corporation, SA Power Network, and, Council (phone Development Assessment on 8203 7185).

How to apply

Complete, sign and lodge this application form attaching:

- Itemised receipt/s for the supply and installation of the system, demonstrating full payment, discounts or other grants, OR for pre-commitments, quote/s for proposed work and supporting system information.
- The manufacture's technical specifications for the energy storage unit
- Electrical Certificate(s) of Compliance (CoC)
- Photos demonstrating the installation is not visible from the street (applicable for heritage properties).
- If applicable, a copy of your:
 - » Written approval from your body corporation, landlord or equivalent
 - » Tenancy Agreement
 - » Decision Notification Form for Development Approvals (D.A.)

Energy storage systems eligibility criteria

1. Limit per category: maximum of one incentive per electricity meter (National Meter Identifier – NMI).
2. The system must be installed by a licenced electrical installer and in accordance with relevant regulations, standards and current CEC guidelines, including Grid-Connect Accreditation with either Battery Endorsement or Stand-Alone Power Systems (for more information, see www.solaraccreditation.com.au).
3. The system must be installed to optimise internal electricity consumption and not be configured as a mains electricity supply back-up system only.
4. Rebate for the installed system cost relates to the energy storage system equipment and installation only. It excludes additional costs such as switchboard upgrades.
5. Energy storage systems purchased on a lease or power purchase agreements are eligible if the outright ownership is vested with the property owner or tenant at the end of the contracted term.
6. The system must be a permanent fixture to the premises and cannot be removed without prior consent of Council for a period of 5 years from the date of the rebate payment. Council reserves the right to require reimbursement if the system is removed within this period.

General eligibility criteria and conditions

1. The property must be located within the City of Adelaide municipal area.
2. Rebates are not available for installations completed before 1 July 2019, and no more than 12 months prior to Council receiving the application form.
3. The Scheme's funding is subject to Council's annual budget processes and funding is limited.
4. Council has the right to cease the Scheme at any time without notification and applications are not guaranteed to receive funding (except where pre-commitment has been approved and activated).
5. Rebates will be applied to the out-of-pocket installation cost incurred by the owner, occupier of the premise or body corporation, after all other incentives, grants, rebates and discounts received have been deducted.

6. The applicant acknowledges and agrees that the City of Adelaide accepts no liability in respect of any claim, cause of actions, loss or damage arising out of, or in relation to, any device purchased or service procured under the Scheme.
7. Environmental measures/devices supported through the Scheme must be installed by appropriately licensed and accredited installers, and maintained in accordance with any relevant guidelines, and in a manner which does not pose risks to the health or welfare of any person.
8. Where a Council D.A. is required, a rebate will be provided once the D.A. is granted, the system is installed according to the conditions set out in the D.A., and the relevant paperwork is submitted.
9. If approved, it may take Council up to 30 working days to pay the rebate.
10. Council may request provision of information associated with the system and usage data for the preparation of a case study.

Development Approval (D.A)

Please speak to your installer and Council's Development Assessment staff (phone: 8203 7185) to discuss planning and building requirements specific to your property.

D.A. will be required for:

1. Any solar PV system on a State Heritage listed place.
2. Any solar PV system on a Local Heritage listed place and/or in a Historic (Conservation) Zone where the system can be seen by a person standing at ground level on a public street.
3. Any solar PV system installed by an installer not recognised by the Minister (i.e. not Clean Energy Council - Battery Endorsed or Stand-Alone Power Systems accredited).

Check your installer has valid CEC Accreditation within South Australia (SA) here: www.solaraccreditation.com.au/consumers/find-an-installer.html.

Application Questions

Please complete and send to incentives@cityofadelaide.com.au with your attachments

Rebate recipient and property details		
Title:	First Name:	Surname:
Organisation or Corporation Name (if applicable):		
Email:		
Phone:	Mobile:	
Property Address (within the City of Adelaide for which the rebate is sought):		

Has this property previously received a rebate from the City of Adelaide for an energy storage system? Y N

Has this, or will this, property received any other grants external to the City of Adelaide? Y N

If YES, please specify:

Is the recipient seeking a pre-commitment? Y N

- » If YES, please attach itemised quote/s for proposed work and supporting system information.
- » If NO, please attach itemised receipt/s for the supply and installation of the system, with the date of installation, location, description and size of the system, demonstrating full payment (or evidence of an agreed payment plan), discounts or other grants, including Small Technology Certificates (STCs). If installing with a solar PV system, the associated costs are to be itemised separately, and;
- » Attach Electrical CoC(s) signed by the licensed and CEC accredited installer detailing the completed work, electrical equipment associated with the system, including any inverter, battery, photovoltaic array, alternating current (AC) generator set, wind generator, etc.

Attach the manufacturers technical specifications outlining the energy storage capacity (kWh)

Are you applying for the City of Adelaide Solar PV Incentive at the same time as submitting this application? Y N

If NO, provide details of your existing solar PV system:	System capacity (kW peak):	Year of installation:
--	----------------------------	-----------------------

Please provide the bank account details for the recipient of the rebate:

Account name:	BSB:
Account Number:	Bank Name:

Recipient's relationship to property:

Owner (occupant) Landlord Tenant Body Corporation Property Manager

Other (please specify):

A letter of approval from the property's landlord/body corporation is attached. Y NA

A copy of the tenancy agreement is attached. Y NA

**Carbon Neutral Adelaide
Sustainability Incentives Scheme
Energy Storage Systems Rebate Application Form**

Land use of property:

- Business Sports Club Not-for-profit organisation

Other (please specify):

Applicant Details

Is the recipient of the grant also the primary contact for this application? Y N

If NO, please fill out the below:

Title:	First Name:	Surname:
Organisation or Corporation Name (if applicable):		
Email:		
Phone:	Mobile:	

Development Approval (D.A.) Requirements

Please select:

The system has been installed in accordance with the conditions set out in a D.A.

Development Application Number:	Date Received:
---------------------------------	----------------

A copy of the Decision Notification Form is attached

OR

D.A. has not been obtained (You MUST answer the following questions – your installer may help you answer.)

Is the system installed on a State Heritage listed place? (If 'YES', D.A. is required) Y N

Is the system installed on a Local Heritage and/or in a Historic (Conservation) Zone listed place? Y N

» If 'YES', can the system be seen by a person standing at ground level in a public street? Y N
(If 'YES', D.A. is required. If 'NO', please attach photographs demonstrating from the street view the system is not visible)

I have contacted Council's Development Assessment staff and discussed the installation of the system at my property.

Date:	Council Officer Name:
-------	-----------------------

Where on the property will the system be installed?

Please specify:

CEC Grid Connect Accredited Installers details (Battery Endorsement or Stand-Alone Power Systems accreditation)

Installer Name:	CEC Number:
-----------------	-------------

Do you have any comments in relation to this application?

Application Declaration

Note: Only owners, and tenants and property managers with authorisation from the owner/s may sign this declaration.

I acknowledge that the application and/or all supporting documentation may be made publicly available.

I agree to the eligibility criteria and conditions as set out in this document.

I declare that the information included on and supplied with this form is true and correct, and that:

- If applying on behalf of an organisation, I am an authorised representative of that organisation
- If renting the property, I have referred to the tenancy agreement and attached written permission to install the system
- If the installation is subject to approval from a body corporate (or equivalent), I have referred our relevant agreement and attached written permission to install the system.
