

RUNDLE MALL VEHICLE ACCESS PERMITS

TERMS & CONDITIONS

E: vehiclepermits@cityofadelaide.com.au | T: 8203 7203

Rundle Mall Vehicle Access Permits are issued to enable access for vehicles dispatching goods and services to and from retailers and businesses in Rundle Mall which have no other access points.

No vehicles are permitted to enter to or remain in Rundle Mall between the following hours:

Monday – Thursday	9:00am – 6:00pm
Friday	9:00am – 9:15pm
Saturday	9:00am – 5:00pm
Sunday	11:00am – 5:00pm

Rundle Mall Vehicle Access Permits are not 'parking permits' and allow vehicles to remain standing in the Mall for no more than 30 minutes at any time for the purposes of unloading or loading of goods to businesses in the Mall only.

To avoid unnecessary obstructions to vehicle movements, the time a vehicle remains in the Mall must be kept to a minimum to ensure the safety and convenience of all Mall users.

- Entrance into Rundle Mall is only via a left-hand turn from King William Street
- Vehicles may only proceed in an easterly direction and must only exit via Pulteney Street
- No U Turns are allowed on Rundle Mall

Vehicles must not be parked in such a manner as to block the thoroughfare or access to any of the side streets leading into or out of the Mall.

Drivers must at all times comply with a vehicle speed limit of 10 Km/h.

At all times, drivers of vehicles must comply with the directions of an Authorised Officer of Council, Rundle Mall Management Authority or a Police Officer.

If the Mall or any equipment, furniture or fittings within the Mall or any premises abutting or adjacent to the Mall are damaged by any vehicle referred to in the permit, the owner and driver of such vehicle shall be liable for the cost of repairing such damage and for the value of any property which has been damaged.

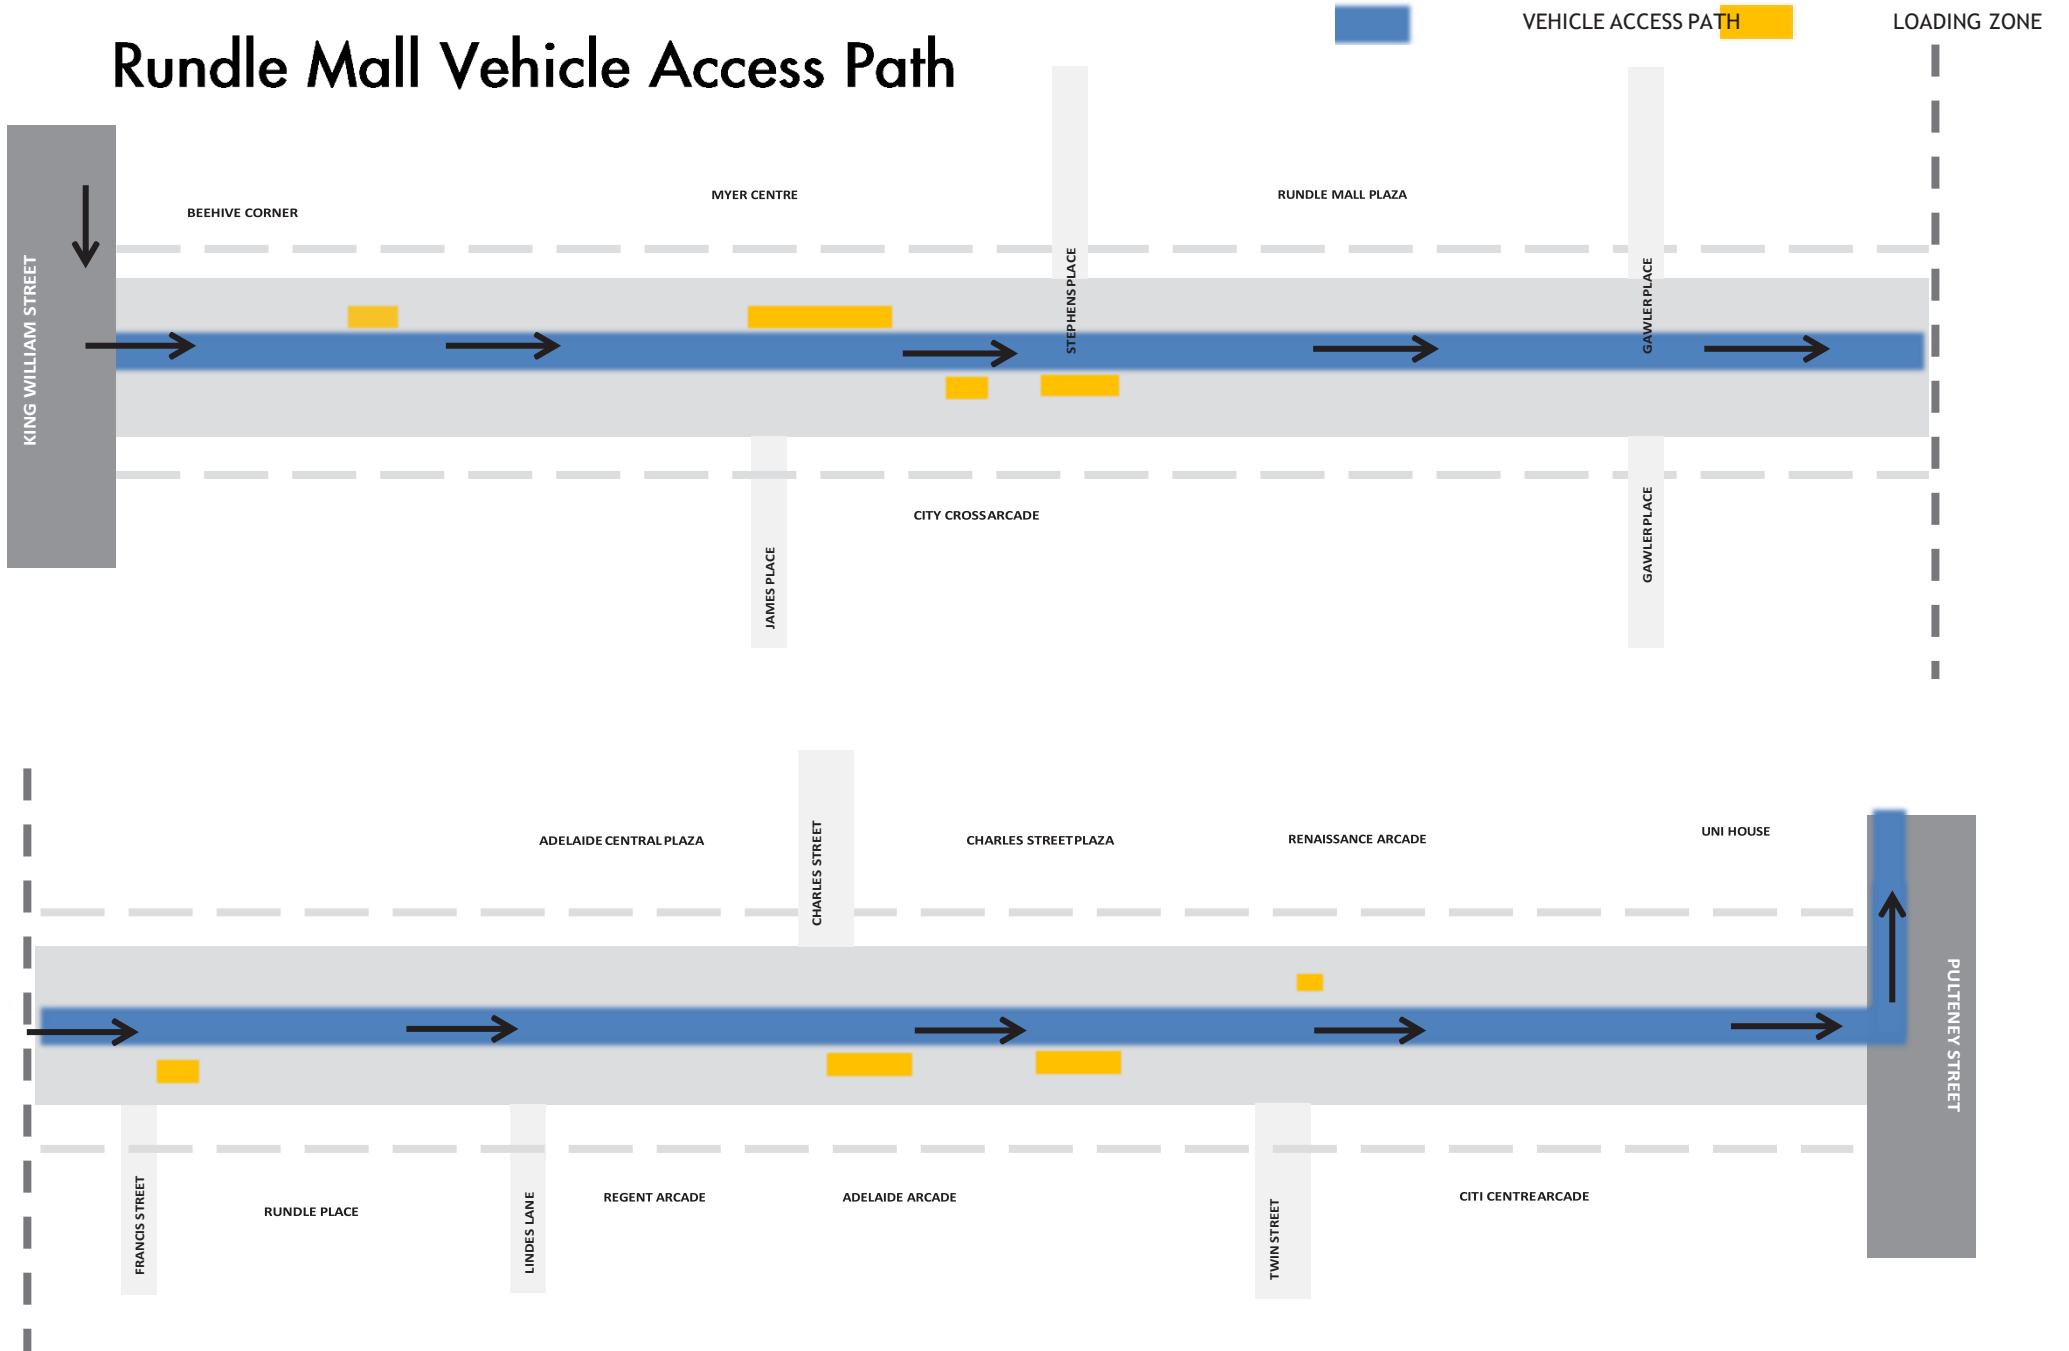

If you are a current Permit holder, Permits must be displayed on the passenger side windscreen of the vehicle and be clearly visible at all times. Failure to display these may lead to the issue of a parking infringement notice by the City of Adelaide.

In circumstances where a vehicle is sold or no longer used for services in the Mall and another vehicle is used, the Rundle Mall Management Authority must be notified to arrange for the alternative vehicle to be registered for access. Upon presentation of the decal from the previous vehicle, a new decal will be issued under the permit and records will be amended accordingly.

Vehicles not complying with these Terms and Conditions may be reported to City of Adelaide for expiation and may have their Permit revoked.

These Terms & Conditions are subject to change.

Rundle Mall Vehicle Access Path

Operation of the bollards is by swipe card or keypad code – the same card or code will operate all bollards. Each site has a keypad on the street side of the bollard to lower the bollards, and a keypad on the Mall side of the bollard to raise the bollards. These keypads are labelled **UP** and **DOWN**.

SWIPE CARD OPERATION

To **LOWER** the bollards place the swipe card against the keypad labelled **DOWN** – the **RED LED** indicator will turn green when successfully activated.

Swipe to lower bollards

It takes twenty seconds for the bollards to lower and a further ten seconds for the pump to time out.

Bollards lowered

To **RAISE** the bollards place the swipe card against the bollard labelled **UP** - the **RED LED** indicator will turn green when successfully activated.

Swipe to raise bollards

It takes twenty seconds for the bollards to raise and a further ten seconds for the pump to time out.

Bollards raised

KEY CODE OPERATION

To **LOWER** the bollards enter the code followed by the hash key into the keypad labelled **DOWN** – the **RED LED** indicator will turn green when successfully activated.

It takes twenty seconds for the bollards to lower and a further ten seconds for the pump to time out.

To **RAISE** the bollards enter the code followed by the hash key into the key pad labelled **UP** - the **RED LED** indicator will turn green when successfully activated.

It takes twenty seconds for the bollards to raise and a further ten seconds for the pump to time out.

NOTES

- Should you use wrong key pad (i.e. the **UP** key pad when you meant to use the **DOWN** key pad) you need to wait 30 seconds for the pump to timeout before using the correct key pad.
- The bollards are operated by 12 volt batteries, which are continuously charged from mains power, and will continue to function for up to two days in the event of a blackout – in the event of an extended power outage batteries will be replaced as required by City of Adelaide maintenance personnel.
- Each site functions independently, so in the event of a fault at one site entry can still be gained at the other site.
- In the event that entry to the Mall can't be gained call **8203 7203** - 24 hours a day seven days a week. If calling out of hours please follow the prompts.
