

Examples of Successful Grant Applications

In addition to meeting Community Impact Grants strategic objectives and priorities, applications demonstrating one or more of the following attributes are more likely to score higher in assessment:

- One or more additional partners are involved in the development and delivery of the initiative evidenced by a supporting letter from partners
- The applicant is contributing some of their own funds/in-kind contribution to the project which is clearly demonstrated in the budget
- The initiative has been co-designed with direct input from the beneficiaries/target group of the project
- The initiative has been developed based on the learnings from previous, similar projects and/or based on documented evidence/research
- There are clear plans and processes in place to evaluate the impact of the initiative

Examples of successful applications across Quick Response, Community Impact Grants and Community Infrastructure Grants are provided below with some reasoning as to why they were successful in receiving full or part funding.

Quick Response Grants

Community Infrastructure Grants

Project Name	Drop In Care Space: Accessibility Improvements
Applicant	Drop in Care Space Inc
Amount Requested	\$58,770
Amount Received	\$31,465
Strategic Objective Identified	Social Inclusion
Brief Description	Upgrade and improve the accessibility and facilities of the community drop in centre in order to meet the needs of isolated and marginalised groups and create an inclusive community space where individuals have the opportunity to connect and participate in activities. Funds to contribute to installation of automatic doors and renovation of the existing toilet block to make it wheelchair accessible.
Why was this application successful?	<ul style="list-style-type: none"> • High level of detail provided with clear outcomes • Good evidence of need for the project with supporting evidence • The Drop in Care Space is still in its infancy with a vision to establish a community drop-in centre that is accessible and welcoming to everyone aged 18+ • The organisation already has a good level of community support evidenced by a successful GoFundMe campaign attracting 74

donations totalling more than \$10,000 to secure tenure of the building.

- Providing easy access for people with a disability is a necessary component for this organisation to create a welcoming and inclusive space and aligns with Council's Strategic Plan and Disability Access and Inclusion Plan.

Project Name	Permeable Fence to Community Garden Perimeter
Applicant	Park Terrace Community Garden Incorporated
Amount Requested	\$19,752
Amount Received	\$19,752
Strategic Objective Identified	Participation
Brief Description	Constructing a 1.5m high permeable fence of 70mm split wattle pales wired with 100mm spacings sitting on a 50 mm H4 plinth of treated pine and tensioned between appropriate posts around the community garden located in Mary Lee Park. The total length will be 115 metres and make provision for 2 accessible gates. The fence will be a permeable living barrier that allows views into the garden and provides the community with a safe place to escape the rigours of urban life.
Why was this application successful?	<ul style="list-style-type: none"> • Clearly identified need for the project • Already sought in principle approval from Council and consulted the Adelaide Park Lands Authority • Potential to attract new members with increased safety • Clear budget with breakdown of each phase of construction with supporting quotes

Project Name	Tee Pads
Applicant	South Australian Disc Golf
Amount Requested	\$48,783
Amount Received	\$48,783
Strategic Objective Identified	Participation
Brief Description	Installation of tee pads. Due to popularity of the Disc Golf Course in King Rodney Park, the tee off sections of natural grass have been torn up from consistent use from SA Disc golf but even more so by the public. These have created unsteady ground to throw from. Working with the council's agriculture team, they have found a product called Soilbond which is commonly used around the city for pathways and temporary driveways. This product will be used for all nine tee pads.

**Why was this
application successful?**

- The disc golf course is easily accessible to the public, can be used casually at no cost and is a popular activity in the Park Lands
- The sport of disc golf continues to grow in popularity and is a low-cost, socially inclusive sport
- The disc golf course plays a key role in activation of the Park Lands, addresses many barriers to participation in physical activity and aligns with a number of Strategic Plan outcomes
- The construction of the tee pads will improve both the safety and quality of the course for the community and ensure that this important asset maintains excellent condition for many years to come
- Sa Disc Golf liaised with Council prior to application to seek approval for the project
- Clear need identified for the project
