HISTORY AND DESCRIPTION:

This house is an excellent example of an 1880s symmetrically fronted sandstone residence. It retains important stylistic elements including rendered quoins and facings to windows and doors, verandah with cast iron decorative brackets and frieze, and eaves brackets.

The Town Acres in this section of North Adelaide are shown as vacant in the Smith Survey of 1880 and they were subdivided and subsequently developed during the decades following. This house remains an important indication of the type of residences constructed at that time, and the use of South Australian bluestone as a building material.
