### **HISTORY AND DESCRIPTION:**

This house is an excellent example of an 1890s-1920s residence of a transitional design. It retains important stylistic elements including sandstone wall construction, corrugated iron roof, brick quoins and facings to windows and doors, with decorative timber verandah and gable elements.

The Smith Survey of 1880 shows Town Acres 1032 and 1033, up to Jerningham Street, vacant and no houses constructed on them. This house would have been subsequently developed during the decades following. This house remains an important indication of the type of residences constructed at that time, some of which, like this one were transitional in that they retained some elements of earlier house design.
