HISTORY AND DESCRIPTION:

This house is an excellent example of an 1880s asymmetrically fronted sandstone residence. It retains important stylistic elements including rendered quoins and facings to windows and doors, verandah and gable with decorative timber elements.

Town acres 1037 and 1038 were essentially undeveloped at the time of the Smith Survey in 1880. Development occurred during the decade following. This house remains an important indication of the type of residences constructed at that time, and the use of South Australian sandstone as a building material.

STATEMENT OF HERITAGE VALUE:

This house is an important example of the type of residences constructed in North Adelaide during the 1880s, and reflects the design, details and building materials characteristic of that time.

The significant number of stone and brick residences, like this house, constructed between 1870 and 1890 throughout this section of the city, are an important element of the distinctive historic residential character of North Adelaide.

RELEVANT CRITERIA (under Section 23(4) of the *Development Act, 1993*):

- (a) This house displays historical and social themes that are of importance to North Adelaide as it represents the continued construction of residences on recently subdivided Town Acres, particularly during the 1870s and 1880s.
- (d) This house displays aesthetic merit and design characteristics of significance to North Adelaide as it is a typical 1870s Victorian residence displaying consistent use of materials such as sandstone masonry walls, rendered trim and decorative timber elements to verandah and gable.

EXTENT OF LISTING:
